Subject: Re: NOAA OR&R Site Visit Report - Lindsey Lake Tanker Truck Spill

Absolutely. It's always great to go on-scene and get a good feeling for what's going on. And again, I was very impressed with what I saw. Yes, feel free to send any version/draft to me and I will circle it around the office and collect thoughts and comments. -Matt

Hi Matt:

Wanted to drop you a quick note to thank you for your visit, and the report. Recognizing that this spill hasn't had a severe (if any) impact to the Columbia, we were still very reassured to have another set of expert eyes on the spill site. The arrival of your report was very timely – we were in the process of drafting a backfill/erosion control plan and the recommendations were very useful. Might ask you to take a look at the restoration plan once we have that in hand, if you have some additional time. Anticipate we won't see a good draft of that plan for a few weeks since we want to get it right.

Thanks again, and please pass our appreciation onto the rest of your office as well.

Jamie
